REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claims as supported by the specification differs from the prior art in that it does not teach a method for manufacturing a display apparatus specifically having a first light exposure operation for each of the rectangular domains and positioning the mask relative to the substrate area so that the rectangular domains not exposed by the first light exposure operation are exposed in a second light exposure operation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
